### KUNITOMO OMINO Pistol

INOUE KANZAEMON SAKU - TOSHITSUGU (Cao) 22" or 55.87cm overall

Carefully considered inlay brings striking contrast to the rich, dark hue; and at the same time an artful poetry, achieved with the ancient characters, **SEIHEN**, "control emergencies", opens a unique window on a world, last seen through Samurai eyes. Correct action in support of correct order, the balance of high and low.

A .5 bore through an attractive, bulb-head, octagonal sloping barrel with its striking contrast of silver and gold inlay, this OMINO matchlock has Chinese dragons, NAMBAN style, and DOKUTSUKI-KEN sword along its fixed sight.
