GEN-DAI YOROI

The great YOROI of the past are made again. The original designs have been accurately reproduced to the minutest detail. Embarrassed experts agree, the unique and secret rusting process creates specimens that are *virtually indistinguishable from old*.

On a buying tour, my associate found incomplete armor priced between \$13000 and \$22000. Age is judged much the same as swords, one definer being the condition and quality of rusting. He was surprised to see *most armor* in the country is GEN-DAI.

Consequently we are proud to offer these authentic and masterfully executed YOROI for \$4500 - complete!

This stunning red MUROMACHI style YOROI was first introduced in BUN-MEI prior to the SENGOKU, where later ODA NOBUNAGA wore a more elaborate version at OKEHAZAMA
